ARCHITECTURE AND OTHER INDUSTRIES

# BIMONT

A LIMITED LIABILITY COMPANY FOR EXECUTION OF WORKS  
IN CIVIL ENGINEERING, NAVAL ARCHITECTURE AND OTHER  
INDUSTRIES

## BACKGROUND

The history of BIMONT reaches back to 1946 and 1965 respectively, the years when 'ALEKSANDAR MAMIĆ' and 'JADRANMONT' were founded, which were subsequently merged in 1978 into the new company BIMONT – for mounting works in shipbuilding and other industries. In 1980, the Company own administrative and production facilities were built within the Industrial Zone of Kukuljanovo. Following the privatization process in 1993, the title over the Company was transferred to its present and former employees as shareholders.

## PRODUCTION FACILITIES

- land area 29.560 m<sup>2</sup>
- production plant 2.800 m<sup>2</sup>  
appropriately equipped for  
metal processing
- other business premises  
480 m<sup>2</sup>

## CRANE CAPACITY

- production plant 5 t bridge  
crane
- production plant 10 t bridge  
crane

Lorry mobile crane Liebherr LTM 1045/1

- lifting capacity: 45.000 kg /10 m  
1.500 kg /34 m

Lorry MAN LE 18,280 mobile crane Palfinger PK 15500 A

- carrying capacity: 6.100 kg / 2,3 m  
3.140 kg / 4,5 m  
2.250 kg / 6,1 m  
1.690 kg / 8,0 m
- freight space 5.4 x 2.4 x 0.5 m

Lorry MAN TGL 10-210

- freight space 6,2 x 2,4 x 0,5 m

Lorry KIA K2500 TCI Double Cab

- freight space 2,2 x 1,6 x 0,3 m

## EMPLOYEES

- |                             |     |
|-----------------------------|-----|
| - production workers        | 80  |
| - engineers and technicians | 10  |
| - other personnel           | 10  |
| Total:                      | 100 |

## PRODUCTION PROGRAMME AND EXPERIENCE

BIMONT d.o.o. (Ltd.) has been present on both the domestic and international markets for more than 50 years now.

Registered activities of Bimont d.o.o. Kukuljanovo comprise execution of works in shipbuilding, civil engineering and other industries. Its principal activity involves mechanical engineering / metal processing and its own equipment production and mounting guarantee a perfect predisposition for complex project execution on a turnkey basis in Croatia as well as abroad.

# BIMONT

A LIMITED LIABILITY COMPANY FOR EXECUTION OF WORKS  
IN CIVIL ENGINEERING, NAVAL ARCHITECTURE AND OTHER  
INDUSTRIES

## ACTIVITY

- manufacturing and mounting of steel constructions and tube bridges
- manufacturing and mounting of steel tanks (stationary and mobile ones) and tank spaces with either fixed or floating tops
- workshop manufacturing of pipelines, laying of pipelines for processing industry, energy suppliers and utility services
- manufacturing of module 'G' pressure equipment
- manufacturing and mounting of various processing, hydro, ecological and waste water equipment
- manufacturing and mounting of renewable energy sources equipment
- mounting of mechanical engineering equipment: steel structures, pipelines, transportation systems and other
- repair, overhauling and service of plants, equipment and appliances in petrochemical, processing and other industries
- execution of shipbuilding works: newbuildings, repair and service works
- construction of steel boats up to 20 m
- civil engineering works: air-conditioning, central heating installation, piping installation, firefighting systems, building construction on a turnkey basis
- anticorrosive protection and surface finishing by blasting (environment friendly procedure)

### Construction:

- Preparation of working drawings, procurement of building permit, preparation of development design, structure/plant construction works and commissioning.

### Demolition:

- Knocking down, structure and equipment dismantling, inclusive of designing and waste disposal

## WELDING / WELDERS' QUALIFICATIONS

Bimont d.o.o. Kukuljanovo has one IWE welding engineer and EWT / IWT welding technologist employed.

There is also an internal welding school in operation within the production plant, providing both the training and certification of welders as well as of all types of welding procedures.

Our welding procedures and our welders have been approved by competent authorities.

## PLANNING AND DEVELOPMENT

Preparation of all types of estimates, blueprints, and verification of blueprints and designs.

INDUSTRIES

## QUALITY ASSURANCE / CONTROL

Our Quality Assurance and Control Department, led by our welding technology, provides technical and qualitative control required for working operations in compliance with respective rules.

Bimont d.o.o. quality assured by:

- TÜV - HRN EN ISO 3834-2
- BUREAU VERITAS
- CROATIAN REGISTER OF SHIPPING

## CERTIFICATES – HOMOLOGATIONS

- ISO 9001:2008 – Quality Management System, Det Norske Veritas
- HRB – Croatian Register of Shipping
- EN 3834-2 + G module PED – pressure vessels

## WELDING EQUIPMENT

- REL welding procedure
- TIG/REL welding procedure
- MIG/MAG welding procedure

## MAJOR MACHINES AND MACHINE TOOLS

- CNC plasma and gas cutter pantograph, dim 6000 x 2000 mm, thickness 35/150 mm
- CNC plate bending roll machine upto 22 mm, max width 2500 mm
- Plate bending press upto 10 mm, max length 2500 mm
- Hydraulic shearing machine for plates upto 10 mm, max length 3100 mm
- Pipe and profile bending machine
- Radial drilling machines
- Turning lathes
- Milling machine
- 25 t rotator machines
- Sandblaster
